

VERTEX SEALER POLISH

DESCRIPTION

VERTEX is new generation sealer ideally suited for use on supermarket floors and unsealed polished concrete floors for added shine.

VERTEX is formulated from selected waxes and resins which when used according to directions will give extended sealer life, allowing for greater economy for maintenance contractors.

On unsealed floors VERTEX will reduce black heel marking and assist in easier maintenance.

DIRECTIONS

- For existing floors first remove old sealer using GYPSIE polish stripper.
- If a chemical resistant floor sealer is required, apply FOUNDATION sealer, following application directions on the pack.
- Apply multiple thin coats of VERTEX as required using a clean mop or microfiber pad applicator.
- All coats must be applied across the direction of the previous coat to ensure even application.
- Allow each subsequent coat to dry thoroughly before attempting re-coating.
- Buff and or burnish the surface to achieve desired gloss and finish.

COVERAGE

5-10m²/L

Each subsequent coat will spread further than the first.

MAINTENANCE

Mop or auto-scrub as required, using VERTEX ACCENT appropriately diluted.

When the surface gloss requires enhancing apply VERTEX GLOSS-UP or VERTEX HIGHLIGHT, buff and or auto-scrub the surface as required.

FIRST AID, SAFETY & STORAGE

Refer to Material Safety Data Sheet.

PACKS

5L, 20L, 200L.

ARMADILLO VERTEX - PDS SEPT 2022

This Product Data Sheet (PDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time. You should read this PDS carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which, the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. Chemical House does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether in accordance with any advice, specification, recommendation, or information given by it.
