

**PRODUCT:**

**LEMONGRASS DISINFECTANT**

**DESCRIPTION:**

LEMONGRASS DISINFECTANT is a unique blend of disinfectants, deodorants and surfactants. This blend results in a 4-way action; disinfection, deodorising, cleaning and re-odourising. LEMONGRASS DISINFECTANT CLEANER can be used in bathrooms, showers, toilets, benches when diluted as per directions. LEMONGRASS DISINFECTANT contains no phosphates, carbonates or silicates, but does contain select anti-redeposition agents and sequestering agents to increase the cleaning efficiency.

**DIRECTIONS FOR USE :**

LEMONGRASS DISINFECTANT is designed to be prediluted 50/50 with water before use to minimise its cost in use. Dose rates reflect both concentrations.

<b>Application</b>	<b>Lemongrass Disinfectant</b>	<b>Water</b>
<b>General Purpose Cleaning</b>	100ml	10Litres (hot)
Heavily Soiled Areas	500ml	10Litres

Use as an antibacterial floor cleaner/wiping, mopping solution, shower cleaner to reduce mould growth in grout. Great for bench cleaning.

**FIRST AID:**

If poisoning occurs, contact a doctor or Poisons Information Centre ☎ 131126. If swallowed, do NOT induce vomiting. Give glass of water. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15minutes and see a doctor.

**STORAGE:**

Store away from other chemicals and food. Do not mix with other chemicals. Product is hazardous to marine and aquatic life. Do not use in septic systems. Any spills should be adsorbed with sand or soil, recovered into a drum, then the area thoroughly washed down with water. Dispose recovered material in compliance with local government by-laws.
